
Share International — background information

For over 30 years artist, author, and lecturer Benjamin Creme has been preparing the way for the biggest event in history — the emergence of Maitreya the World Teacher and His group, the Masters of Wisdom. Millions of people around the world have heard his information and wait expectantly for this momentous event.

Since 19 July 1977 Maitreya has been living in the Asian community of London, gradually emerging before the public. Long awaited by all faiths under different names, Maitreya is the World Teacher for all people, religious or not.

Maitreya's 'roving ambassador' Benjamin Creme travels the world spreading his message of hope and creating a climate of expectancy for Maitreya's emergence. Trained and supervised over many years by his own Master, with whom he is in constant telepathic contact, Benjamin Creme has access to up-to-date information on Maitreya's emergence, giving him the total conviction needed to present this story to a sceptical world.

As a modern man concerned with today's problems, Maitreya works behind the scenes of our changing world. The outpouring of His extraordinary energy has been the stimulus for dramatic developments on many fronts: the ending of the cold war; the break-up of the Soviet Union; the unification of Germany; the ending of apartheid in South Africa; the growing power of the people's voice, leading to demands for freedom and justice; and the worldwide focus on preserving the environment.

Outwardly Maitreya has met with influential leaders from all fields, informing them of His solutions to our pressing problems. His message can be summarized as: "Share and save the world." He has not come to found a new religion but as an educator in the broadest sense. He will seek to inspire humanity to see itself as one family, and to create a civilization based on sharing, economic and social justice, and global co-operation.

For those who seek signs of His coming, Maitreya has manifested miracles worldwide, touching the hearts of millions and preparing them for His imminent appearance.

With Maitreya and His group working openly in the world, offering Their guidance and teachings, humanity is assured not only of survival but of the creation of a brilliant new civilization.

According to Benjamin Creme, we do not have long to wait to see Him. Soon, Maitreya will be interviewed on major US television and His open emergence will begin.

Benjamin Creme regularly lectures worldwide, and appears on television and radio — in the USA alone he has been interviewed on more than 700 radio and television shows. He is author of 10 books — translated into 11 languages — and is editor of *Share International* magazine which circulates in 70 countries. He receives no payment for any of this work. Benjamin Creme offers a positive view of the future — a message of hope for the world.

SHARE INTERNATIONAL

News release no. 77, June 2006

Over many years **Share International** magazine has published regular articles by a Master of Wisdom (see paragraph 1 overleaf). Far from being mystical or remote, the Master often addresses the immediate problems facing humanity. In the latest article He warns of the dire state of the Earth's environment, highlighting particularly the dangers of nuclear pollution, and urges us to "Wake up" to the urgency of the crisis.

Invisible peril

by the Master –, through Benjamin Creme

If men were to see the state of the world as We, the Masters, see, they would be amazed, dumfounded and afraid, all at the same time. So far from the reality is man's view of conditions on Earth, and so lacking in judgement is he about future possibilities, that, without help, man would watch his planetary home languish and die.

As it is, planet Earth is in a sad and perilous condition while each day brings it nearer to the critical. Many voices have sounded warnings on global warming, and many views have been expressed, but even the most dire prophecy falls short of the calamity facing the world today. Few there are who see the immediacy of the threat and the urgency of the steps needed to counter it. Great as is the peril posed by global warming, this, unfortunately, is not the greatest, or most hazardous, faced by man today. Did he but know it, man is engaged in a slow but steadily increasing intoxication of the race and of the lower kingdoms. Toxicity, pollutions, of all kinds, and in all fields, is now the greatest danger to men, animals and the Earth itself. All are poisoned and sick in their own way.

Sorry tale

Unknown to men but evident to Us, the greatest harm sustained by men and planet in this sorry tale is caused by nuclear radiation. Men have gone far astray in the development of this most dangerous energetic source. Led astray by greed, and the false hope of vast profits, they have concentrated their experiments in 'taming' the most dangerous source of energy ever discovered by man, neglecting, meanwhile, a perfectly safe alternative use of the energy of the atom. Atomic fusion, cold and harmless, could be theirs from a simple isotope of water, everywhere available in the oceans, seas and rivers, and in every shower of rain.

Man must cease his 'toying with death'. Atomic fission is the result of the atomic bombs which destroyed Hiroshima and Nagasaki; which erupted in Chernobyl and causes, subtly, death and sickness today. It is "that which stands where it ought not" and which must be renounced by man if he would prosper further.

Confident

Earth scientists are confident that they have, indeed, tamed the monster, and can keep it under control. They do not realize that their instruments are crude indeed, that they measure only the lower aspects of nuclear radiation, that stretching above these dense-physical levels are levels finer and more dangerous to the health and well-being of all. But for the tireless efforts of our Extra-planetary Brothers in assuaging this invisible peril in so far as the karmic law allows, our plight would be perilous indeed. Wake up, mankind!
